

LIFE COACHING MINISTRIES

COACHING FEES:

It is the desire of Life Coaching Ministries to serve men and women in their pursuit of excellence. The wellbeing of the client is at the heart of our endeavors. In our society, however, there is the cost of running a business and maintaining a financial base wherein a service to others may be realized. To meet this need, Life Coaching Ministries has established the following graduated coaching fee table.

The following table reflects combined gross income per family unit. To establish this figure, you as a client, will be providing this information using an honor system. You will not be asked to prove your financial standing. The following figures represent a two party family unit. For each additional family member the person being coached may reduce their fee by \$3.00 per session.

*: Experience indicates that when clients pay a fee they are more committed to the venture at hand; therefore, Life Coaching Ministries has agreed to charge a minimum of \$5.00 based on annual income instead of offering services *pro bono*.

It is the hope of Life Coaching Ministries that each client will appreciate the spirit behind the use of this table and will be willing to participate accordingly.
